Research Papers

Investigating the mechanisms leading to the deglaciation of past continental northern hemisphere ice sheets with the CLIMBER–GREMLINS coupled model
S. Charbit, M. Kageyama, D. Roche, C. Ritz and G. Ramstein 253

Modeling the interannual variability and trends in gross and net primary productivity of tropical forests from 1982 to 1999
K. Ichii, H. Hashimoto, R. Nemani and M. White 274

Changes of major terrestrial ecosystems in China since 1960
T.X. Yue, Z.M. Fan and J.Y. Liu 287

Thermosteric sea level rise for the past 50 years; comparison with tide gauges and inference on water mass contribution
A. Lombard, A. Cazenave, K. DoMinh, C. Cabanes and R.S. Nerem 303

Discussions

"Borehole temperatures, climate change and pre-observational surface air temperature mean: Allowance for hydraulic conditions" by Louise Bodri and Vladimir Cermak
G. Ferguson 313

Reply to Dr. Ferguson
L. Bodri and V. Cermak 315
